## Description

### Product Data Analyst

- Established in 2016, FireGroup Technology JSC is a tech company that specializes in web-app solutions for running the business on e-commerce platforms. FireGroup has now become the leading web-app provider, especially on both Shopify and AliExpress platforms.
- Our mission is to solve challenges & problems in the global E-commerce market by using technologies. We are looking for new members who dare to think big and grow bigger.
- FireGroup is seeking a skilled and motivated Product Data Analyst to join our team. As a Product Data Analyst, you will be responsible for collecting, processing, analyzing, and interpreting complex data sets to provide insights and recommendations to drive product growth. You will work closely with our engineering and product teams to ensure data quality, develop metrics, and build reports and dashboards.

## Responsibilities

- Collect, clean, and process large data sets from various sources.
- Conduct data analysis to identify trends, patterns, and insights.
- Develop and maintain product metrics, KPIs, and reports.
- Work closely with product and engineering teams to identify opportunities for data-driven insights and recommendations.
- Collaborate with stakeholders to build predictive models and machine learning algorithms to drive product growth.
- Communicate data insights and recommendations effectively to non-technical stakeholders.

## Qualifications

- Bachelor's degree in computer science, statistics, mathematics, or a related field.
- Proven experience as a Data Analyst for SaaS products
- Strong analytical and problem-solving skills.
- Proficiency in SQL, Excel, and data visualization tools such as Tableau, Looker Studio...
- Experience with statistical analysis and modeling.
- Strong communication and presentation skills.
- Ability to work independently and as part of a team in a fast-paced environment.
